PROFESSIONAL SUMMARY

Master of Business Data Analytics student at Charles Sturt University and Computer Science graduate from BRAC University. Experienced in spreadsheet-based project budgeting, payroll calculations and inventory coordination within an engineering firm, with additional Australian workplace experience in healthcare and hospitality. Combines technical problem-solving with strong communication, organisation and attention to detail, and is keen to contribute to data analytics, reporting and business intelligence teams.

TECHNICAL SKILLS

Programming Languages	Python, C, PHP, JavaScript
Database Management System	MySQL, SQL
Technical Writing Tool	LATEX
Data Visualisation & BI	Power BI, Tableau
Spreadsheets	Microsoft Excel, Google Sheets
Productivity Tools	Microsoft Word, Google Workspace

PROFESSIONAL EXPERIENCE

Administrative & Technical Assistant | Suchana Engineers Ltd., Dhaka, Bangladesh — Jan 2025 - Sep 2025

- Maintained Excel records of project costs and budget allocations, keeping project financial information organised and up to date.
- Calculated staff salaries and maintained payroll-related spreadsheets and supporting administrative records.
- Tracked inventory, material requirements and project activities to help coordinate operational needs across engineering work.
- Managed documentation and meeting coordination, and assisted staff with software installation, computer, network and printer troubleshooting.

PROJECTS & RESEARCH

BRACU Research Portal | BRAC University (CSE470) — [2024]

Technologies: PHP, Laravel, MySQL, HTML, CSS, JavaScript

- *Collaborated on developing a database-driven research management website for organizing and accessing academic papers and projects.*
- *Worked on user authentication, research paper management, search functionality and backend database integration.*

Malwart Sales & Profit Analysis (2021–2024) | Charles Sturt University (MKT563) — [2026]

Technologies: Tableau, Microsoft Excel

- *Analyzed 11,000 retail sales records to evaluate $3.59M in revenue and $436K in profit across regions, product categories, customer segments and shipping methods.*
- *Developed 10 Tableau visualizations and 2 interactive dashboards using calculated fields, KPI metrics and dynamic filters to monitor sales trends, profitability and business performance.*
- *Identified key profitability issues, including negative aggregate profit at discount levels above 20%, approximately $20K in losses from the Tables sub-category and low regional profit margins, providing data-driven business recommendations.*

EDUCATION

Masters of Business Data Analytics | Charles Sturt University, Sydney, Australia — 2026 - Present

Bachelor of Science in Computer Science | BRAC University, Dhaka, Bangladesh — 2021 - 2025

ADDITIONAL AUSTRALIAN EXPERIENCE

Support Service Assistant | North Shore Private Hospital, Sydney — Aug 2026 - Present

Support patients, visitors and multidisciplinary teams, coordinate requests and maintain accurate stock replenishment.

Host | Kobe Wagyu Yakiniku, Sydney — Mar 2026 - Aug 2026

Welcomed and assisted guests, handled POS orders and payments, responded to customer enquiries and supported operations during busy shifts.

Other experience: Seasonal Crew Member, McDonald's (Sydney), Jun - Jul 2026.
